Odin's Eye: A Marquette Time Travel Novel by Tyler R. Tichelaar

SYNOPSIS

WHEN JOHN is found unconscious at the Huron Mountain Club and brought back to Marquette, Michigan to recuperate, everyone assures him it's the year 1900, but somehow John's memories of automobiles, televisions, and other modern devices seem to suggest he doesn't belong in this time.

SOON SEVERAL people are trying to help John regain his memory from his teenage friend Hugh Allen to Marquette's most prominent businessman, Peter White. But despite how many times John walks around Marquette, and no matter how many people he talks to, he can't seem to remember anything and no one recognizes him.
