**Ten-Year Anniversary Edition Released for Popular Local Novel**

Marquette, MI, April 14, 2016—In 2006, local author Tyler R. Tichelaar published his first novel, *Iron Pioneers*, which was soon followed by two sequels, *The Queen City* and *Superior Heritage* to complete The Marquette Trilogy. Now Tichelaar is celebrating the ten-year anniversary of this first novel by reprinting it with a new color cover, an interior historic map of Marquette, and a new preface “Creating a Literature for Upper Michigan.”

“It felt like the ten-year anniversary of my first book was a reason to celebrate,” said Tichelaar. “And *Iron Pioneers* remains my bestselling book to this day, but I was never happy with the brown cover, which was chosen by my publisher at the time. I initially envisioned a gold cover, so I’ve chosen that, which seemed appropriate for an anniversary edition.”

Tichelaar first had the idea to write novels set in Marquette back in 1987 when he began writing his first book, eventually published in 2009 as *The Only Thing That Lasts*. But it was in 1999, when he was living in Kalamazoo, earning his Ph.D. in Literature, and homesick for the U.P., that he had the idea to write a novel that covered the scope of Marquette’s history. “It was Marquette’s sesquicentennial year,” he said, “and I felt it was time to tell Marquette’s story in a new way that highlighted its significant role in American history.” Tichelaar planned to write one novel, but the more research he did, the larger it grew, until it eventually became a trilogy. “It was seven years from conception to publication,” said Tichelaar, “but nearly 600,000 words and countless drafts later, I found it all worth it when people began reading The Marquette Trilogy.”

The plot of *Iron Pioneers* begins with a prologue about Father Marquette coming to the Marquette area. It then moves ahead to 1849 when Marquette was founded. It follows several fictional families through the early pioneer years, the Civil War, the fire of 1868, and the growth of Marquette. Numerous historical people, including Bishop Baraga and Peter White, are featured in the story. The story concludes in 1897 with the celebrations surrounding the Father Marquette statue’s unveiling. The successive books in the trilogy continue the story of Marquette’s history up to the sesquicentennial celebrations in 1999. “I wanted readers to feel they were stepping back in time to meet Marquette’s pioneers and to come away appreciating the sacrifices they made and the courage they showed when they settled here,” said Tichelaar.

Tichelaar has been very pleased with his readers’ responses to *Iron Pioneers* and his other books. “People tell me that they look at Marquette differently after they read my books. They notice old buildings, wonder about the people who once lived or worked there, and want to learn more about them. Tichelaar also noted that when he began writing *Iron Pioneers*, there was a lack of adult fiction set in Upper Michigan. Since then, the number of U.P. writers has exploded. “Today we can be proud that we have a vibrant and diverse U.P. literature,” said Tichelaar. “We have novels, history books, and poetry. I know of over one hundred U.P. writers all doing their part to capture the essence of our life here. I am proud to be one of the pioneers of that movement, and I intend to write many more books for the people who love this place and call it home.”
